ARE HEADACHES HOLDING YOU BACK?

Have you recently had a head injury and been experiencing headaches ever since? If so, you might have **post-traumatic headache (PTH)**. PTH are common and develop **within 7 days after head injury**.

A new **MTBI²** study is assessing the efficacy of an **FDA-approved migraine medicine in treating PTH**, to **decrease the burden and optimize overall performance**. This trial is open to DEERS eligible adults. If interested, please scan the QR code to contact us!

INTERESTED?

YOU MAY BE ELIGIBLE IF YOU:

**HAD A HEAD INJURY IN THE
LAST 7 DAYS**

**ARE DEERS ELIGIBLE AND 18 -
50 YEARS OF AGE**

**PLAN TO STAY NEAR FORT BLISS
FOR THE NEXT 4 MONTHS**
